Title AURASeg: Attention Guided Upsampling with Residual Boundary-Assistive Refinement for Robot Drivable-Area Segmentation

File Upload Section **Compliant pdf conversion.** The IEEE Robotics and Automation Letters Submission and Review Management System supports compliant pdf conversion. Simply locate the Pdf, Word or LaTeX source file of your journal paper on your computer and upload it. The IEEE Robotics and Automation Letters Submission and Review Management System will convert it to compliant pdf that satisfies the requirements of the publisher. [What is compliant pdf?](#)

Manuscript compliance. Besides pdf compliance the journal and publisher impose additional requirements on the manuscript, such as the number of pages, paper size, text margins and file size. Be sure to use the Word or LaTeX template provided by the journal and check out the submission requirements on the [journal website](#). [View the manuscript compliance requirements](#)

Important: Please make sure that the name of any file that you try to upload, as well as the names of all directories in the file path, only contain standard ASCII characters. Otherwise you run the risk of receiving a security violation error message
